

Welcome to DM

# DentalMonitoring, for treatment that fits your lifestyle.

Your time is valuable so your doctor provides you with DentalMonitoring: scan your smile from your smartphone, so that they keep track of your treatment and send you recommendations via the DM app.

---

## You'll love DentalMonitoring for:

### Convenience

Enjoy the simplicity of remote checkpoints! Your doctor can get in touch with you virtually on a regular schedule to make sure your treatment is tracking well.

### Communication

Receive your own treatment recommendations and contact your practice easily with DentalMonitoring, thanks to the in-app messaging system.

### Motivation

Visualise the evolution of your smile thanks to the unique photo morphing technology. There's no better feeling than seeing your dream smile take shape on your screen.

### Safety

Reach out to your practice for any concerns or any questions: Just send a scan and they'll be able to guide you or book an appointment if needed.

# How does it work?

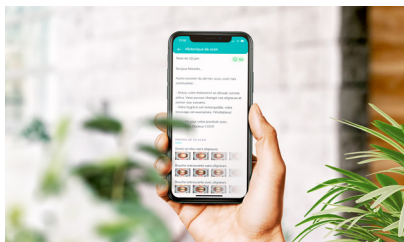

## 1/Download the DM app.

Use your activation email and easily download the app on your smartphone.

**2/Take scans of your smile from anywhere!** Use the ScanBox <sup>PRO</sup> to take a few scans of your smile following your personalised treatment monitoring schedule. This unique device will help you take perfect pictures every time.

## 3/Receive your report and follow your doctor's instructions.

Thanks to the regular scans you send through the DentalMonitoring app, your doctor monitors your treatment progress if needed, they can contact you via the app, without the hassle of booking an in-practice appointment, unless it's absolutely necessary!

## 4/Relax and smile!

Whatever your treatment is, rest easy knowing that your doctor is keeping an eye on you remotely, so enjoy your journey to a better smile!

# DentalMonitoring

dental-monitoring.com

DentalMonitoring is a product designed and manufactured by Dental Monitoring SAS, under the DentalMind branding for Healthcare Professionals (HCP). It is also used by patients under the mandatory supervision of Health Care Professional (HCP). DentalMonitoring is designed to assist HCP, registered at DentalMind, in observing remotely intra-oral situations and monitoring orthodontic treatments. DentalMonitoring product is a medical device (in Europe only), registered as such and holding the CE mark. Refer to your HCP and/or the Instructions for Use before use. Products availability, claims and regulatory status may differ across countries depending on local regulations. Contact your local representative for further information.
